# GAMALIEL LAMADRID PEREZ

## EXPERIENCE

**September, 2021 - December, 2021**

Development • Intern • Wishaft

My tasks were to carry out the activities assigned for the week, mainly they were to develop front-end and a little back-end using the flutter language.

**April, 2023 – August, 2023**

Development • Intern • Bridge Studio MX

Perform backend activities focused on API management creating CRUDs for the project and doing their respective tests so that they could be used in the front-end.

## EDUCATION

**Universidad Tecnológica de San Luis Rio Colorado.**

**Software Development and Management Engineering.**

**September 2019 – August 2023**

- In the university and I have worked with servers, web development practices both front-end and back-end, in addition to mobile application development practices both front-end and back-end. Finally, I have also done internships with MSQl and NoSQL databases.
